The software adds two new effects, inverse and reverse. Both should be of use to users of our customer's Baxandall FX plugin plugins. One of the new effects can be found in the plugin page here. Over the past several months, KVR Audio's reFX plugin has been selected as a finalist for the "Best Editing Plug-In" award at the 2008 NAMM show in Anaheim, CA. Since our beta-quality KVR Audio Product Showcase video for reFX was released on January 31st, 2008, reFX has been gaining popularity and making sales at a steady rate. If you haven't purchased KVR Audio's reFX plugin, please do so now. Once you're familiar with this fun plugin, you'll be sure to reach for it again and again. Try it out! KVR Audio released version 2.1.0 of its reFX plugin on February 24th, 2008. This update incorporates the new reFX effect along with fixes for bugs and interface issues. Download the plugin here: reFX Plugin for NI Reaktor The KVR Audio Product Showcase video is now available for download. In this video, check out some of the features of KVR's reFX plugin, as well as a demonstration of the plugin's new reFX effect.

Q: Regular expression to grab the text inside quote I am looking for a regular expression that can grab the the text inside a quote. I have the following string: This is text "inside text inside quote" I need to pull out the string "inside text inside quote" as I need to further trim the string and just have the text inside the quotes. A: This will get you most of the way there if (myString.Contains("")) myString = myString.Replace("", string.Empty); You can use the following regular expression : (? 82157476af
